DETAILED ACTION

Specification

The specification is objected to because it does not meet the requirement under 37 CFR 1.58.(a). The specification, including the claims, may contain chemical and mathematical formulae, but **shall not contain drawings or flow diagrams**. The description portion of the specification may contain tables, but the same tables may only be included in both the drawings and description portion of the specification if the application was filed under 35 U.S.C. 371.

The drawings on pages 5, 16, and 17 should be deleted from the specification and amend text references as necessary. The examiner recommends that the drawings should be furnished per 37 CFR 1.81.

Claim Objections

Claim 10 is objected to because of the following informalities: Claim 10 depends on canceled claim 3. Appropriate correction is required.

Allowable Subject Matter

Claims 1, 2, 6-19, and 21 are allowed.
